

aquaseal

shower base

Features & Benefits

- Anti skid surface
- 50mm waste, standard for most households
- Waste positions are rear or centre, to suit most applications
- Has a 9mm(w) tile flange on three sides and a 3mm x 5mm lip at the entry side of the base. the front lip is to protect against leakage due to faulty installations
- Does not need to be checked into stud work when 10mm plaster board is being used, if villa board is being used the base will be required to be checked into stud work 3mm
- Requires a 10mm mortar bed
